

EIDR Best Practices for Edits

- Two new documents are available:
 - *Best Practices and Use Cases for EIDR Edits*
 - *Version and Distribution Management for Episodic Content* (which relies on Edits)
- Edit Updates are part of EIDR 2.1
 - Scheduled for implementation in April
- We need to:
 - Confirm our recommended best practices ASAP
 - Confirm our Edit-related 2.1 plans before April
 - Address any outstanding issues or concerns with a particular focus on enabling future workflows

Best Practices & Use Cases for Edits

- The Distinguishing Characteristics of an Edit
- When to Create a New Edit ID
- Important Edge Cases
 - Episodic Works
 - Nested Edits
 - Localized Versions

Version etc. for Episodic Content

- Individual Episodes
 - Including Edits for Syndication, Omnibus
- Recut Seasons
 - Including Combined, Split Episodes
- Distribution Bundles
 - Including Seasons, Series, Mini-Series
- Other Cases
 - Including Composites, Theatrical Serials

EIDR Edits Tiger Team

- We'll Convene in February
 - We'll send an all-member email invitation for people who aren't here today
 - First call will be held Wed. Feb. 10
 - Allowing 2 weeks' notice
 - Call will run 8:00AM–9:00AM Pacific
 - To support participation from Europe
- During the 1st call, we'll decide on the scheduling for future calls
- Outcome will be:
 - Confirmation of current policies
 - Recommendation for new policies (presented to the TWG for approval)
 - Requests for Schema changes (including Edit Class list updates)
- Our work needs to conclude prior to March 28
 - So we can confirm our development schedule prior to April 4
